The Kite  
Academy  
Trust  
Flying high  
together

# 1 Introduction

The Kite Academy Trust aims to:

- Provide and maintain a safe and healthy environment;
- Establish and maintain safe working procedures amongst staff, pupils and all visitors to our premises;
- Have robust procedures in place in case of emergencies;
- Ensure that the premises and equipment are maintained safely, and are regularly inspected

# 2 Legislation

This policy is based on advice from the Department for Education on health and safety in schools and the following legislation:

The Health and Safety at Work etc. Act 1974, which sets out the general duties employers have towards employees and duties relating to lettings;

The Management of Health and Safety at Work Regulations 1992, which require employers to make an assessment of the risks to the health and safety of their employees;

The Management of Health and Safety at Work Regulations 1999, which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training;

The Control of Substances Hazardous to Health Regulations 2002, which require employers to control substances that are hazardous to health;

The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013, which state that some accidents must be reported to the Health and Safety Executive and set out the timeframe for this and how long records of such accidents must be kept;

The Health and Safety (Display Screen Equipment) Regulations 1992, which require employers to carry out digital screen equipment assessments and states users' entitlement to an eyesight test;

The Gas Safety (Installation and Use) Regulations 1998, which require work on gas fittings to be carried out by someone on the Gas Safe Register;

The Regulatory Reform (Fire Safety) Order 2005, which requires employers to take general fire precautions to ensure the safety of their staff;

The Work at Height Regulations 2005, which requires employers to protect their staff from falls from height;

Our academies follow national guidance published by Public Health England when responding to infection control issues.

This policy complies with our funding agreement and articles of association.

# 3 Roles and Responsibilities

## **Board of Trustees**

The Kite Academy Trust Board of Trustees has ultimate responsibility for health and safety matters across the Trust, but delegates day-to-day responsibility to the Head Teacher of each academy.

The Trust Board have a duty to take reasonable steps to ensure that staff and pupils are not exposed to risks to their health and safety. This applies to activities on or off the academy premises.

## **Head Teacher**

The Head Teacher of each academy has responsibility for the day-to-day operation of health, safety and welfare policies and practices within their academy. Employees are responsible for their own health and

safety and that of their colleagues and members of the public who may be affected by their work activities. The Head Teacher's day-to-day responsibilities include:

- Implementing the Health and Safety Policy;
- Ensuring there is enough staff to safely supervise pupils;
- Ensuring that the academy building and premises are safe and regularly inspected;
- Providing adequate training for academy staff;
- Reporting to the Estates Team, Academy Council and Trust Board on health and safety matters;
- Ensuring appropriate evacuation procedures are in place and regular emergency drills are held;
- Ensuring all risk assessments are completed, reviewed and communicated to staff;
- Referring to the Health & Safety Strategic Risk Management Service;
- Monitoring cleaning and grounds maintenance standards;
- Ensuring that in their absence, health and safety responsibilities are delegated to another member of staff;

### **Academy Councils**

Academy Councils make decisions and take action that best meets the needs of the children, staff and communities they serve. Academy health and safety procedures are monitored within the Safeguarding and Community Portfolios. Governors, with assistance from the Head Teacher, Site Manager and Estates Team (who, if appropriate, may seek advice from professional safety advisors) will monitor health, safety and welfare to ensure that all necessary procedures are devised, implemented, reviewed and complied with.

Academy Council Portfolio Holders conduct monitoring to ensure:

- A safe environment for pupils, staff, visitors and other users of the premises;
- Safe plant, equipment and systems;
- Safe arrangements for transportation, storage and use of articles and substances;
- Safe and healthy conditions that take account of:
  - Statutory requirements;
  - Approved Codes of Practice;
  - Adequate information, instruction, training and supervision;
  - Provision of all necessary safety and protective equipment

### **Estates Team**

The Kite Academy Trust Estates Team monitors compliance responsibilities across the Trust to ensure these are being met. The Estates Manager and Lead Site Manager work with the academy Head Teacher and Site Manager to monitor Health & Safety standards.

### **Responsibilities of the Site Manager**

Each academy Site Manager conducts daily internal and external health and safety checks and monitors the standard of cleaning and grounds maintenance services. Health & Safety Inspections are carried out biannually. The Site Manager liaises with relevant members of staff to ensure health and safety risks are properly controlled throughout the academy. The Site Manager is the first point of contact for any identified health and safety issues to ensure that the matter can be investigated properly and dealt with effectively. The Site Manager will liaise with contractors, providing them with information on any hazards, such as asbestos, electrical services etc. that they may come across whilst working on academy premises. The Site Manager will also monitor contractors to ensure they work in a safe manner so that the health and safety of staff and pupils are not at risk. Support is available from the Estates Team.

## **Employees**

Members of staff are required to:

- Take reasonable care of their own health and safety and that of others who may be affected by what they do at work;
- Co-operate with the academy on health and safety matters;
- Work in accordance with training and instructions;
- Inform the Head Teacher/Site Manager of any work situation representing a serious and immediate danger so that remedial action can be taken;
- Not interfere with or misuse anything provided in the interests of health, safety and welfare;
- Ensure that their ability to work has not been compromised by deliberate actions such as the consumption of alcoholic drink, drugs, lack of sleep or rest;
- Drive on academy business in a safe and careful manner at all times;
- Comply with their legal duties under the Health and Safety at Work Act and all other relevant legislation;
- Encourage colleagues to adopt a positive attitude to health and safety;
- Make suggestions for improving health and safety within the academy;
- Model safe and hygienic practice for pupils;
- Understand emergency evacuation procedures and feel confident in implementing them

## **Staff Responsible for Pupils, Other Staff and/or Areas of Work**

These members of staff are required to:

- Have a general responsibility for the application of the Kite Academy Trust Health & Safety Policy to their area of work and are directly responsible to the Head Teacher for the application of existing safety measures and procedures within that area of work;
- Establish and maintain, where necessary, safe working procedures including arrangements for ensuring, as far as is reasonably practicable, safety and absence of risks to health in connection with the use, handling, storage and transport of articles and substances;
- Resolve any health and safety problem any member of staff may refer to them and refer to the Head Teacher any of these problems for which they cannot achieve a satisfactory solution within the resources available to them;
- Carry out a regular safety of their area of work and activities for which they are responsible and submit a report to the Head Teacher, who will refer important issues to the Estates Team and/or Academy Council as appropriate;
- Ensure, as far as is reasonably practicable, the provision of sufficient information, instruction, training and supervision to enable other employees and pupils to avoid hazards and contribute positively to their own health and safety;
- Seek advice and guidance, where appropriate, from the Head Teacher, Site Manager or Estates Team;
- Propose to the Head Teacher requirements for safety equipment and additions or improvements to plant, tools, equipment or machinery, which are dangerous or potentially so

## **Special Obligations of Teachers for Pupils in Classroom**

The safety of pupils in classrooms is the responsibility of the class teacher; the teacher has traditionally carried this responsibility for the safety of pupils when they are in their charge. If for any reason a teacher

considers they cannot accept this responsibility, they should discuss the matter in advance with the Head Teacher before allowing practical work to take place.

A class teacher is expected to:

- Exercise effective supervision of pupils;
- Know all of the emergency procedures and to carry them out (e.g. first aid, fire, prison escape);
- Know the special safety measures to be adopted in their own special teaching areas and to ensure that they are applied;
- Induct pupils as appropriate on their first introduction either to an area where special codes of behaviour apply or to a new system of working;
- Give clear instructions and warnings as often as necessary (notices, posters, hand-outs etc. are not enough);
- Integrate all relevant aspects of safety into the teaching process and, if necessary, give special lessons on safety with appropriate documentation in exercise books;
- Follow safe-working procedures personally;
- Ensure the wearing of protective clothing use of guards and the observance of special safe procedures etc. where necessary.

This section applies, also, to student teachers and any other person who from time to time may be with pupils in the academy.

#### **Pupils and Parents**

Pupils and parents are responsible for following the academy's health and safety advice, on-site and off-site, and for reporting any health and safety incidents to a member of staff.

#### **Contractors**

Contractors will agree health and safety practices with the Site Manager and Head Teacher before starting work. Before work begins, the contractor will provide evidence that they have completed an adequate risk assessment of all their planned work. This includes signing to confirm they have read the Asbestos Management Plan and holding permits for hot works.

## 4 Strategic Risk Management

The Kite Academy Trust participates in the Surrey County Council Services for Schools Health and Safety Advisory Strategic Risk Management Service. This includes:

- Telephone and Email Helpdesk service
- Emergency Out of Hours Services
- Health & Safety advice & support
- Training
- Monitoring and inspection of health and safety management systems
- Incident and accident reporting, support and monitoring (OSHENS and RIDDOR)
- Accident investigation support
- Access to EVOLVE (dedicated school journey website)
- Membership of The Royal Society for the Prevention of Accidents (RoSPA)
- Membership of Consortium of Local Education Authorities for the Provision of Science Services

## 5 Emergency Provision

Each academy has an individual Emergency Plan which details procedures and arrangements to be used in the event of an emergency. The Emergency Plan is reviewed annually.

## 6 First Aid

Each academy appoints designated first aiders, at least one of which has a paediatric first aid certificate, with responsibility for:

- Acting as first responders to any incidents, assessing the situation where there is an injured or ill person, and provide immediate and appropriate treatment;
- Ensuring that an ambulance or other professional medical help is summoned when appropriate;
- Filling in an accident report on the same day, or as soon as is reasonably practicable, after an incident

Each academy has first aid kit(s) in areas around the academy, a full first aid kit in the office/medical room and ensures that there are adequate medical supplies in all kits. All staff at the academy must know where the first aid kits are stored.

Parents/carers are responsible for ensuring that the academy has their correct, up-to-date contact details. As a minimum, **three** emergency contacts must be provided for each child in contact priority order.

An accident form will be completed by the relevant member of staff on the same day or as soon as possible after an incident resulting in an injury; as much detail as possible should be supplied when reporting an accident.

Records held of administered first aid/accidents are retained by the academy for a minimum of 3 years, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, and then disposed of securely.

See Kite Academy Trust First Aid Policy

## 7 Site Security

The Site Manager is responsible for the security of the academy site in and out of academy hours. They are responsible for visual inspections of the site, and for the intruder and fire alarm systems.

A list of key holders for each academy is held by both the academy and the Central Team. Key holders will respond to an emergency (where applicable).

## 8 Fire

Emergency exits, assembly points and assembly point instructions are clearly identified by safety signs and notices. Fire risk assessment of the premises will be reviewed regularly.

Emergency evacuations are practiced at least once a term.

Please see the individual academy's red Emergency File for more information.

New staff will be trained in fire safety and all staff and pupils will be made aware of any new fire risks.

In the event of a fire:

- The alarm will be raised immediately by whoever discovers the fire and emergency services contacted. Evacuation procedures will also begin immediately;
- Fire extinguishers may only be used by staff, and only then if staff are trained in how to operate them and are confident they can use them without putting themselves or others at risk

See Kite Academy Trust Fire Policy

## 9 COSHH

Schools are required to control hazardous substances, which can take many forms, including:

- Chemicals;
- Products containing chemicals;

- Fumes;
- Dusts;
- Vapours;
- Mists;
- Gases and asphyxiating gases;
- Germs that cause diseases, such as leptospirosis or legionnaires disease

Control of substances hazardous to health (COSHH) records are maintained by the Site Manager and held in each academy's red Emergency File. Personal protective equipment is available, where necessary.

Hazardous products are used and stored in accordance with instructions and guidance on the product label. All hazardous products must be kept in their original containers, with clear labelling and product information. Any hazardous products must be disposed of in accordance with specific disposal procedures. Guidance for emergency procedures, including procedures for dealing with spillages, must be displayed near where hazardous products are stored and routinely used.

## 10 Gas Safety

Installation, maintenance and repair of gas appliances and fittings is carried out by a competent Gas Safe registered engineer.

Gas pipework, appliances and flues are regularly inspected and maintained.

All rooms with gas appliances are checked to ensure that they have adequate ventilation.

## 11 Legionella

A water risk assessment is carried out by an accredited company every 2 years. The Site Manager is responsible for ensuring that the identified operational controls are conducted and recorded in the academy's water log book.

This risk assessment will be reviewed every 2 years. When significant changes have occurred to the water system, further professional advice is sought.

The risks from legionella are mitigated by the following:

- Temperature checks;
- Heating of water;
- Disinfection of showers, etc.

## 12 Asbestos

Our academy buildings have a low detection rate of asbestos as documented on the individual academy asbestos register within the Asbestos Management Plan (AMP). The fabric of the buildings must not be disturbed (i.e. by wall fixings, drawing pins etc.) without prior consultation with the Site Manager.

Arrangements are in place to ensure that contractors are made aware of any asbestos on the premises and that it is not disturbed by their work. Contractors are required to sign to confirm they have read the AMP.

Contractors are advised that if they discover material which they suspect could be asbestos, they will stop work immediately until the area is declared safe.

The AMP is held in each academy office.

## 13 Cleaning

Adequate cleaning of our premises is a legal requirement and the Trust is committed to ensuring the highest possible standards of cleanliness so as to provide a pleasant environment for staff and pupils and minimise the spread of infections.

Cleaning standards will be established in cleaning schedules to ensure the required levels of cleanliness required and the legal requirements for compliance with health and safety regulations. Cleaning standards are monitored regularly by the Site Manager and Head Teacher. Cleaning staff are appropriately trained and have access to personal protective equipment.

All spillages of blood, faeces, saliva and vomit, nasal and eye discharge must be cleaned immediately, wearing personal protective equipment. Spillages should be cleaned using a product which combines detergent and disinfectant, ensuring it is effective against both bacteria and viruses. Disposable paper towels or cloths should be used and disposed of as clinical waste after use.

In the event of an outbreak of infection, due consideration will be given to enhanced or more frequent cleaning, as advised by the local Health Protection Team and Public Health England. Particular attention will be given to surfaces that are touch regularly, such as toys, books, desks, chairs, doors, sinks, toilets, light switches, bannisters and will be cleaned more regularly than normal.

To reduce the risk of spreading an infectious illness, such as coronavirus (COVID-19), areas used by a person displaying symptoms should be cleaned with disinfectant using disposable cleaning materials and wearing disposable gloves and aprons. If an area has been heavily contaminated, such as with visible bodily fluids, eye, nose and mouth protection should also be worn. PPE should be double-bagged, and disposed of in accordance with relevant guidelines. Hands should be washed with soap and water for 20 seconds after all PPE has been removed. Cleaning contractors will be notified by academy staff so that enhanced cleaning may be undertaken.

Please see the Kite Academy Trust's Infection Control Policy.

## 14 Equipment

All equipment and machinery are maintained in accordance with the manufacturer's instructions. In addition, maintenance schedules outline when extra checks should take place.

When new equipment is purchased, it is checked to ensure that it meets appropriate educational standards.

All equipment is stored in the appropriate storage containers and areas. All containers are labelled with the correct hazard sign and contents.

### **Electrical Equipment**

All staff are responsible for ensuring that they use and handle electrical equipment sensibly and safely.

Any pupil or volunteer who handles electrical appliances does so under the supervision of the member of staff who so directs them.

Any potential hazards will be reported to the Site Manager immediately.

Permanently installed electrical equipment is connected through a dedicated isolator switch and adequately earthed.

Only trained staff members can check plugs.

Where necessary a portable appliance test (PAT) will be carried out by a competent person.

All isolators switches are clearly marked to identify their machine.

Electrical apparatus and connections will not be touched by wet hands and will only be used in dry conditions.

Maintenance, repair, installation and disconnection work associated with permanently installed or portable electrical equipment is only carried out by a competent person.

Any electrical equipment brought in from home by a member of staff to be used in the academy must be visually inspected by the Site Manager before being used.

### **PE Equipment**

Pupils are taught how to carry out and set up PE equipment safely and efficiently. Staff check that equipment is set up safely.

Any concerns about the condition of the gym floor or other apparatus will be reported to the Head Teacher and/or Site Manager.

Annual safety checks are carried out by the Local Authority.

### **Display Screen Equipment**

All staff who use computers daily as a significant part of their normal work have a display screen equipment (DSE) assessment carried out. 'Significant' is taken to be continuous/near continuous spells of an hour or more at a time.

Staff identified as DSE users are entitled to an eyesight test for DSE use upon request, and at regular intervals thereafter, by a qualified optician (and corrective glasses provided if required specifically for DSE use).

### **Specialist Equipment**

Parents are responsible for the maintenance and safety of their children's wheelchairs. In the academy, staff promote the responsible use of wheelchairs.

Oxygen cylinders are stored in a designated space, and staff are trained in the removal storage and replacement of oxygen cylinders (if applicable).

## 15 Lone Working

Lone working may include:

- Late working
- Home or site visits
- Weekend working
- Site Manager duties
- Site cleaning duties
- Working in a single occupancy office

Potentially dangerous activities, such as those where there is a risk of falling from height, will not be undertaken when working alone. If there are any doubts about the task to be performed, then the task will be postponed until other staff members are available.

If lone working is to be undertaken, a colleague, friend or family member will be informed about where the member of staff is and when they are likely to return.

The lone worker will ensure that they are medically fit to work alone.

## 16 Working at Height

We will ensure that work is properly planned, supervised and carried out by competent people with the skills, knowledge and experience to do the work with relevant training. In addition:

- The Site Manager retains ladders for working at height

- Pupils are prohibited from using ladders
- Staff will wear appropriate footwear and clothing when using ladders
- Contractors are expected to provide their own ladders for working at height
- Before using a ladder, staff are expected to conduct a visual inspection to ensure its safety
- Access to high levels, such as roofs, is only permitted by trained persons

## 17 Manual Handling

It is up to individuals to determine whether they are fit to lift or move equipment and furniture. If an individual feels that to lift an item could result in injury or exacerbate an existing condition, they will ask for assistance.

The academy will ensure that proper mechanical aids and lifting equipment are available on site, and that staff are trained in how to use them safely.

Staff and pupils are expected to use the following basic manual handling procedure:

- Plan the lift and assess the load. If it is awkward or heavy, use a mechanical aid, such as a trolley, or ask another person to help
- Take the more direct route that is clear from obstruction and is as flat as possible
- Ensure the area where you plan to offload the load is clear
- When lifting, bend your knees and keep your back straight, feet apart and angled out. Ensure the load is held close to the body and firmly. Lift smoothly and slowly and avoid twisting, stretching and reaching where practicable

## 18 Curriculum Safety & Off-site Visits

It is recognised that some curriculum areas represent an increase in risk; these areas hold specific health and safety procedures and arrangements which are reviewed by the Head Teacher and communicated to the relevant staff.

When taking pupils off the academy premises, risk assessments will be completed including activities to be undertaken. All off-site visits are appropriately staffed. Staff will take a mobile phone, a portable first aid kit, information about the specific medical needs of pupils along with the parents' contact details.

For academies without Early Years Foundation Stage children, there will always be at least one first aider on trips and visits.

For academies with Early Years Foundation Stage children, there will always be at least one first aider with a current paediatric first aid certificate on trips and visits, as required by the statutory framework for the Early Years Foundation Stage.

Operation Duke Cards must be carried by staff when off-site.

## 19 Lettings

Those who hire/use any aspect of the academy site or any facilities will be made aware of the content of this policy and local arrangements/procedures and will have responsibility for complying with them.

See Kite Academy Trust Income & Lettings Policy.

## 20 Violence at Work

The Health and Safety Executive's definition of violence at work is "any incident in which an employee is abused, threatened or assaulted by a member of the public in circumstances arising out of the course of his or her employment." This means verbal abuse or threats count just as much as a physical attack.

We believe that staff should not be in any danger at work, and will not tolerate violent or threatening behaviour towards our staff.

All staff will report any incidents of aggression or violence (or near misses) directed to themselves to their line manager and/or Head Teacher immediately. This applies to violence from pupils, visitors or other staff.

## 21 Smoking & Vaping

Smoking and Vaping are not permitted anywhere on academy premises.

## 22 Infection Prevention & Control

The Kite Academy Trust's Infection Control Policy provides guidance to prevent and manage infections in our academies.

We follow national guidance published by Public Health England (PHE) when responding to infection control issues and encourage staff and pupils to routinely follow good hygiene practice.

During an outbreak of an infectious illness, epidemic or pandemic, additional measures and procedures will be put in to practice to minimise the spread of the infection and ensure our academies are safe. These will include daily cleaning procedures that follow national guidance and are compliant with the COSHH. Enhanced cleaning will be undertaken where required.

See Kite Academy Trust's Infection Control Policy.

## 23 New & Expectant Mothers

Risk assessments will be carried out whenever an employee notifies the academy that they are pregnant. Appropriate measures will be put in place to control risks identified. Some specific risks include:

- Chickenpox can affect the pregnancy if a woman has not already had the infection. Expectant mothers should report exposure to antenatal carer and GP at any stage of exposure. Shingles is caused by the same virus as chickenpox, so anyone who has not had chickenpox is potentially vulnerable to the infection if they have close contact with a case of shingles
- If a pregnant woman comes into contact with measles or German measles (rubella), she should inform her antenatal carer and GP immediately to ensure investigation
- Slapped cheek disease (parvovirus B19) can occasionally affect an unborn child. If exposed early in pregnancy (before 20 weeks), the pregnant woman should inform her antenatal care and GP as this must be investigated promptly

See Kite Academy Trust's Infection Control Policy.

## 24 Occupational Stress

We are committed to promoting high levels of health and wellbeing and recognise the importance of identifying and reducing workplace stressors through risk assessment.

Systems are in place within the academy for responding to individual concerns and monitoring staff workloads.

[www.iesohealth.com](http://www.iesohealth.com)

## 25 Accident Reporting

**All Accidents/Incidents**

All employees and contractors are personally responsible for reporting accidents, incidents and near misses to the Site Manager or School Office.

The Head Teacher, Site Manager or Academy Council Chair is responsible for investigating accidents and completing the accident record.

Union Health and Safety representatives may also investigate accidents to members of staff, to whom they have a duty of care, and report to the Head Teacher.

If any pupil should become ill or suffer injury they should inform a member of staff. Any rendering of first aid by staff should be appropriate to their knowledge and skills.

All members of staff should deal with minor illness and accidents but such assistance should only be rendered as far as knowledge and skill admits. The pupil should be given reasonable reassurance and be removed from danger when necessary.

Medication supplied by parents is only administered after receipt of a written request from the parents. All medication must be prescribed by a Doctor.

All accidents reportable under either OSHENS or the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR) must be recorded by the designated person and authorised by the Head Teacher.

It may be appropriate to transport a pupil either to the minor injuries department at hospital or to their home. The Head Teacher must know of this action, a record will be kept of all such actions and if a private car is used, appropriate insurance cover must be held and booster seat used (if required). No pupil or member of staff should be allowed to travel to the hospital unaccompanied. Whenever feasible, the parents should be informed so that they may take over at the hospital from the member of staff. The member of staff should remain at the hospital as long as the situation demands but it is the responsibility of the Senior Nursing Office at the hospital to maintain contact with parents and only in exceptional circumstances should academy staff be required to remain.

If an ambulance is required, the 999 service should be used.

All staff should report personal accident or illness to the Head Teacher.

### **Reporting to the Health & Safety Executive**

The designated member of staff will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The designated member of staff will report these to the Health & Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

Death

Specified injuries including:

- Fractures, other than to fingers, thumbs and toes
- Amputations
- Any injury likely to lead to permanent loss of sight or reduction in sight
- Any crush injury to the head or torso causing damage to the brain or internal organs
- Serious burns (including scalding)
- Any scalping requiring hospital treatment
- Any loss of consciousness caused by head injury or asphyxia
- Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours

- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days
- Where an accident leads to someone being taken to hospital
- Where something happens that does not result in an injury, but could have done

Near-miss events that do not result in an injury, but could have done, are recorded. Examples of near-miss events include, but are not limited to:

- The collapse or failure of load-bearing parts of lifts and lifting equipment
- The accidental release of a biological agent likely to cause severe human illness
- The accidental release or escape of any substance that may cause a serious injury or damage to health
- An electrical short circuit or overload causing a fire or explosion

Information on how to make a RIDDOR report is available here: <http://www.hse.gov.uk/riddor/report.htm>

### **Notifying Parents**

A designated member of staff will inform parents of any accident or injury sustained by a pupil, and any first aid treatment given, on the same day, or as soon as reasonably practicable.

### **Reporting to the Area School's Officer (ASO) and Child Protection Agencies**

The Head Teacher, at their discretion, may notify the Area Schools Officer of any serious accident, illness or injury to, or death of, a pupil while in the academy's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident.

The Head Teacher or designated member of staff at their discretion may also notify children's services, of any serious accident or injury to, or the death of, a pupil while in the academy's care.

## 26 Transport

When on Trust or academy business, staff must drive in a safe and careful manner at all times.

When travelling by minibus, staff must conduct and record the relevant safety checks. The vehicle must be maintained and serviced in accordance with the law.

See Kite Academy Trust Driving & Transportation Policy

## 27 Training

Staff are provided with health and safety training as part of the induction process and as required, relevant to their role.

Staff who work in high risk environments, or work with pupils with special educational needs (SEN), are given additional health and safety training.
